## Giant Bomb's 2016 Game of the Year Awards: Day Three

by Giant Bomb Staff on December 28, 2016

Share: [t](#) [f](#) [o](#)

It's a day of remasters, fake computers, pleasant surprises, and that just need to stop.

Watch the Day Three Deliberations here:

2016 gave us remasters of old games, computers that were made to look old, industry trends that were things of the past, and an old name that suddenly feels fresher than ever.

### Best Remaster

#### Day of the Tentacle Remastered

In a year dominated by "remasters" that consisted of minor graphical touch-ups to games that it feels like we just got through playing, Day of the Tentacle Remastered stands out as a loving and actually necessary restoration of a revered old classic. This is a game from an era when 256-color VGA graphics and digital speech were only starting to become the norm, so needless to say, the original production values don't hold up particularly well these days. Also, people *love* Day of the
